

Placemaking Lancaster Together

Young adults and Policy Makers

What's on offer?

Calling those aged 18 - 30 we need you!

Come along to the workshop to explore and develop ideas for sustainable policies to make a difference for Lancaster District! In this workshop you will be invited to reflect upon your experiences of sustainable ways of living, and help to co-articulate ideas for environmental policies, strategies, and priority values to help inform Lancaster *placemaking and sustainability in the district*.

It doesn't matter if you have a lot of ideas about sustainability or are not really sure what it is all about, your voice matters. We want you to share your views, raise your voice on issues close to your heart regarding future sustainable ways of living and dwelling, and craft your perspectives and values to inform policy ideas for the development of the Lancaster District.

Join us to co-develop ideas for sustainable policies for Lancaster District and a free networking breakfast!
