Health and Safety in Construction Programme

This course is aimed at individuals who require a CSCS labouring card to get a job within the Construction Industry but don't currently have the required qualifications.

On successful completion of the course you will gain two accredited certificates and a score report:

- AIM Qualifications - Suite of Vocational Pathways Qualifications (AIMVOCs) in Construction and Building – Extended Award Level 1
- AIM Qualifications - Health and Safety in a Construction Environment Level 1
- CITB Health, Safety and Environment Score Report

Once you have achieved all assessments, we can then apply for your CSCS labouring card.

During the course you will demonstrate and develop your understanding of:

- Working in the Construction Industry
- Principles of risk assessment
- Working at height
- General health risks in a construction environment
- Principles of Building, Construction and Communication
- Safe manual handling
- Using equipment safely

The course, including tests and card, are FREE for students who are unemployed and claiming an eligible benefit such as Universal Credit. It is also free for people who are working and on a low income. Other conditions apply, please enquire for more details. Contact details below.

Courses and tests will be at our test centre, The Waterside Centre in Accrington. If you are working and require a CSCS card we can also help with relevant information.
